

REMARKS

Applicant has amended the claims to define the invention in clearer form and to avoid multiple-dependent claims.

In view thereof, it is respectfully requested to enter the present amendments before examination of this application.

Figure 5 of the drawings has been amended to omit the legends that are written in German. Translations of these legends into English on Figure 5, is not necessary because the elements in Figure 5 are identified by reference numbers which are described in the specification. It is also not proper procedure to insert legends in the drawings where the elements identified by the legends are already described in the specification.
